The FUTURES Interdisciplinary Biotechnology and Biodiversity Project sponsored by an USDA/CSREES grant invites applications from all biotechnology and biodiversity related disciplines for its fellowship program to promote multidisciplinary student training. All interested students, especially those students who are not currently conducting biotechnology related research, are highly encouraged to apply.

**Fellowship Amount:**

Graduate Students: $500 – $1,000

*amount depends on number of applicants*

Undergraduate Students: $500

**Application Deadline (received by):** October 4, 2004

If you are interested, please talk to your academic adviser for details, or contact:
